

Butterflies Class

Autumn Term 2026-2027

Class Teacher: Mrs Eggleton

Learning Support Assistants: Miss Barrable,
Mrs Palmer and Mrs Denning

English: In our writing this term, we will be taking inspiration from the Amelia Earhart (Little People, Big Dreams) book and using this to write our own inspiring non-fiction texts. We will then move onto the "The Rainbow Fish", which is a beautiful story with a hidden message about the importance of kindness and the feeling of belonging. We will be creating our own narrative stories with a special message.

Maths: Year 1 pupils will focus on Place Value in numbers up to 20, initially, then in numbers up to 50. Year 2 will continue to work on addition and subtraction. After half term, we will move onto bigger numbers, looking at place value up to 100. Before finally moving on to shape and geometry before Christmas.

Science: This term we will be looking at **Everyday Materials**. We will be looking at the world around us and the different materials that are used to make things. For year 2, this will build on last year's learning and allow them to take a more evaluative approach and begin developing their own hypotheses and experiments.

History and Geography: In **Geography** this term we will be looking at "The World and My School". Children will look at their own place in the world and their context within a wider community. In **History**, we are really excited about our "Toys" topic and can't wait to build on our learning with a trip to Tiverton Museum and an exciting workshop.

Home Learning Y1: Pupils should read a minimum of three times a week, using their eBooks login. A phonics overview will also be provided each week to practice key sounds and spellings.

Home Learning Y2: Pupils should read a minimum of three times a week. In addition, families are welcome to complete further learning for maths (overview provided for each unit) and spellings (new rule provided weekly).

PSHE:

Me and My Relationships –

In this unit, we will be focusing on feelings, friendships and how to spot bullying. It will also be a great opportunity for us to establish our new classroom rules and think about why they are important.

DT/Art: In **Art** we will focus on monochrome drawings inspired by Christa Rijneveld. In **DT**, we will be thinking about "Plant Power" and using our own research to develop healthy snacks.

Music: Mrs Devereaux will be inspiring pupils with old-school hip hop music!

Religious Education: This term we will be focussing on **What does it mean to belong to a faith or belief community?** and **Who is Jewish and how do they live?**

Computing: Computing system and networks (technology around us).

Online safety: Think before you share.

PE:

PE will be on Wednesdays and will focus on fundamental skills.
